SUMMARY

Software Developer with 1.2 years of experience in building web and desktop applications using .NET technologies. Skilled in ASP.NET Core MVC, C sharp, SQL Server, and WPF. Experienced in front-end development with HTML, CSS, Bootstrap, JavaScript, ¡Query, AJAX, Angular, and TypeScript. Strong knowledge of database optimization, stored procedures, and version control using Git and GitHub. Passionate about creating efficient, scalable applications and continuously learning new technologies.

SKILLS

- Programming Languages: C sharp, TypeScript, JavaScript
- Web Technologies: ASP.NET Core MVC, HTML5, CSS3, Bootstrap, jQuery, AJAX, Angular
- Database Systems: Microsoft SQL Server (Stored Procedures, Database Optimization)
- Desktop Application Development: WPF (Windows Presentation Foundation)
- DevOps & Version Control: Git, GitHub
- Specialized Area: .NET Full Stack Development, REST API Development
- Other Tools & Technologies: Visual Studio, Visual Studio Code, SSMS (SQL Server Management Studio), Postman

EXPERIENCE

• MKM Info Solutions Pvt. Ltd.

Jun 2024 - Present

Software Developer

Cyberpark Kozhikode, India

- Developed and optimized the Auto Garage App (Desktop Application) using WPF, streamlining vehicle service management for over 100+ active users. Implemented an intuitive UI and automated job card generation, reducing manual work by 40%.
- Engineered HRMS (Human Resource Management System) to automate employee attendance, payroll processing, and leave management, enhancing HR efficiency and reducing processing time by 30%.
- Designed and implemented PMS (Project Management System) with task tracking and real-time collaboration features, improving team productivity by 25% and benefiting 50+ users across multiple departments.
- Developed EMS (Enterprise Management System), integrating business process automation for resource planning, leading to 20% faster decision-making and streamlined data analysis for enterprise operations.
- Built and integrated RESTful APIs, ensuring seamless data communication across systems, resulting in a 50% **improvement in response times** and enhanced user experience.
- Optimized SQL queries and database operations, improving report generation speed by 60% in key business modules.
- Implemented Git and GitHub for version control, standardizing development workflows and enabling collaborative code reviews.

Glowsis Technologies

Dec 2023 - May 2024

Full Stack Developer | Intern

KINFRA Industrial Park, Calicut, India

- Contributed to the development of a Customer Relationship Management (CRM) system, optimizing lead tracking and client interactions, leading to a 20% increase in customer retention.
- Developed a Kitchen Order Ticket (KOT) System, reducing order processing time by 35% and improving kitchen efficiency for restaurant clients.
- Designed and implemented responsive and interactive UI components using Angular, Bootstrap, and jQuery, improving front-end performance and user engagement.
- Assisted in optimizing database queries and backend logic, improving API response time by 40%.
- Utilized Git and GitHub for version control, ensuring code consistency and facilitating seamless team collaboration.

EDUCATION

 College of Engineering Adoor B.Tech in Computer Science

2020 - 2023

Kerala, India

2017 - 2020

Diploma in Computer Science

Kerala, India

IDT Islam Polytechnic College
